

- Well over twenty meetings of the Steering Group have been convened and these are continuing

- This Drop-In session is being held to enable further consultation on housing matters

- A Review Group is currently working with a planning consultant and Purbeck District Planning to scrutinize the Neighbourhood Plan and move towards publication

- At an appropriate date in the near future, the Plan will undergo an independent examination, following the appointment of an examiner by PDC

- ***A referendum date will then be arranged to allow residents to determine whether the Plan should be approved***

- Both the Parish Council and the Neighbourhood Plan Steering Group continue to be totally committed to consulting with residents of Arne in developing policies and actions in line with their views

WHAT WILL YOU SEE?

The Drop-In sessions will give you a chance to see and discuss development proposals from developers for the two West Lane Sites. Representatives from the Neighbourhood Plan Steering group and the developers will be attending.

There will also be presentation boards for the Worgret development site identified in Purbeck District Council's Partial Review of its local plan.
